## NEW EXPANDED Capabilities!

- Layer Count up to 28 Layers
- Blind and Buried Vias
- MIL-PRF-55110G and MIL-I-45208 Certified for Double-Sided and Multilayer with Plasma Etchback
- AS9100:2004B Certified
- .003 Line/Space Capability
- High Frequency/hi-temp Laminates including all Rogers products ULTRALAM, PTFE/Ceramic, and RT/duroid ... Plus Nelco, Taconic, Polyimide, and others
- .003" Finished Plated Hole Size for .040 or less PCBs (.005" for .062 thick PCBs)
- Laser-Drilled and Copper-Filled Microvias
- Via-in-Pad Technology using Conductive and Non-Conductive Fill Materials
- Controlled Impedance with Polar Calculations and TDR Measurement
- ITAR Registered
